Civil Engineering / CAD Designer / Engineer

Job description

Karins and Associates is seeking a CAD designer or Staff Engineer with Land Development experience to provide exceptional value to our clients by transforming ideas into successful projects under the guidance and direct supervision of our Senior Project Engineers. Responsibilities include but not limited to;

RESPONSIBILITIES

- AutoCAD Civil 3D Design/Drafting of Land Development Plans with high proficiency
- Zoning compliance review of site plans and feasibility studies
- Site grading and utility layout
- Stormwater management design
- Coordinate project requirements with team members and provide assistance when necessary to complete required tasks (i.e., site visits, quantity takeoffs, Township codes, etc.)

QUALIFICATIONS AND REQUIREMENTS

- Bachelor's or Associate Degree in Civil Engineering
- Proficient in AutoCAD Civil 3D with 5+ years' experience
- Proficiency in MS Word and Excel
- Ability to meet project deadlines within given budget limits and time frames
- Ability to prioritize and multi-task assigned projects, and work with minimal supervision
- Strong technical background
- Knowledge of planning and zoning process
- Ability to interact well with coworkers, clients, and regulatory agencies
- Excellent verbal and written communication skills

PREFERRED JOB SKILLS

- Experience dealing with regulatory agencies and review professionals
- Knowledge of engineering and construction industry

"Better Communities through Better Engineering"

ABOUT KARINS AND ASSOCIATES

Karins and Associates is an award winning, client-focused firm that goes beyond traditional design and planning. For more than 48 years, we have provided exceptional value to our clients in civil engineering and land surveying services and proudly serve our diverse clients from three states and five office locations.

Karins offers services including subdivision/land development, surveying and 3D laser scanning, stormwater management/water resources, utility planning and engineering, transportation and traffic engineering, certified construction review, and construction permitting.

Our mission is to transform ideas into successful projects with superior customer service and advanced technological solutions to our clients. We place the highest importance on our vision by creating “Better Communities Through Better Engineering.” We deliver extraordinary projects that come alive in the communities that we serve.

Our corporate headquarters is in Newark, Delaware, with additional locations in Georgetown, DE, Bryn Mawr and Exton, PA, and Belcamp, MD.
